- MS Access 2013
- MS PowerPoint 2013
- Employment Preparation
- World Host Fundamentals
- Social Media for Business

COMPUTER ACCOUNTING PROGRAM

There is a constant and ongoing demand for qualified bookkeepers. Your employment options will expand with a Computer Accounting Certificate that is recognized by the Canadian Payroll Association. Qualified bookkeepers are in demand and today's employers require up-to-date training and skill sets. You will learn the core principles and theories in accounting that will enable you to transfer and cross-over these skills to other accounting programs.

Admission Requirements: Grade 12 or mature student (over 19 and out of school for one year) PLUS touch control of the keyboard with 20 net wpm

Computer Accounting Program Courses

(7 core courses required with 2 optional courses)

- Bookkeeping 1
- Accounting 2
- Accounting 3
- Introduction to MS Windows 10
- MS Excel 2013 Level 1
- Sage 50 (Simply Accounting) Level 1
- Sage 50 (Simply Accounting) Level 2
- MS Excel 2013 Level 2 (optional)
- Employment Preparation (optional)

Business Program Courses & Computer Applications

BOOKKEEPING 1

This course is designed to introduce the student to the basic concepts of accounting and to set a foundation for the understanding of accounting theory and practice. It will introduce students to the accounting cycle from setting up the chart of accounts to the calculating and presentation of financial statements. The course will show how different items are classified into asset, liability, equity, revenue and expense accounts. It will also show how to do a bank reconciliation and how to setup and use petty cash.

Bring a hand calculator.

Early Childhood Education Certificate

Why ECE?... Because Kids Don't Come With Instructions!

The Early Childhood Education Program (ECE) prepares students to work in a variety of early learning settings such as preschool, private kindergarten, Strong Start, child care, or community recreation courses for young children. Successful completion of 15 courses, including three practicum courses, and 500 hours of work experience qualifies students to apply for provincial licensure as an Early Childhood Educator. Licensed graduates may ladder into post-basic diploma programs, or into Child and Youth Care degree programs at other institutions. (Graduates do not qualify as teachers in the public school system.)

Admission Requirements:

Secondary school (grade 12) or equivalent, or acceptance under mature student status.

Duration: 908 hours

Application for admission is required.

\$30 Application Fee

FREE Information Sessions:

Wed. June 19 7:00 pm

Wed. August 21 7:00 pm

Wed. November 20 7:00 pm

Call to register!

PROGRAM REQUIREMENTS:

ECE01 & 02 Child Growth & Development I & II

During these two courses students learn to use observation, research, and documentation tools to explore expected developmental milestones for children from pre-birth to eight years of age. Developmental theory is reviewed, and students conduct a child study to compare their own observations with generally accepted theories of development.

ECE03 Foundations in ECE

This course introduces students to the history of early childhood programs, and explores the current issues that affect the early childhood education field. Current issues are identified and explored from local, national, and global perspectives. Topics might include: children's rights, program standards and regulations, assessment, and government policy regarding child care and early learning.

ECE04 Health, Safety & Nutrition

This course supports students as they develop the skills and knowledge necessary to keep very young children safe and healthy in group situations. Provincial regulations pertaining to child care are reviewed, and students are required to develop methods and resources that assist adults as they strive to protect the health and safety of young children.

ECE05 Creative Art / ECE08 Language & Literature / ECE10 Music & Movement / ECE11 Math, Science & Technology

These four courses provide students with the tools and resources they will need to work in any early childhood program. Students practice the practical skills necessary to lead developmentally appropriate activities, learn to articulate and communicate what the children are learning, and develop a number of resources for use in the classroom.

ECE06 & 07 Curriculum I & II

These general curriculum courses support students as they learn to plan and execute developmentally appropriate activities for young children. Students begin by learning to develop and integrate traditional curriculum models, and are then encouraged to refine their observation skills and think more deeply as they work toward sharing and documenting pedagogical narration.

ECE09 Guiding Behaviour

Quality in early learning environments often depends on the relationships that are developed between and among teachers and children. This course reviews the history of guiding behaviour and introduces a variety of theoretical approaches, with the aim of preparing students to use positive relationships as the basis for classroom management.

ECE12 Child, Family & Community

Students will explore the role of early childhood programs as a support to families in our communities. Family-centered models of care will be studied, and particular attention will be paid to the factors that affect the development of strong and resilient families within our communities. Methods of positive communication, issues of diversity, and the early childhood educator's overall roles and responsibilities will be explored in depth.

ECEP01-03 Practicum I / II / III

Practicum is a provincially mandated course requirement that provides students with the opportunity to experience several different program delivery models as they practice, and improve on the skills necessary to become skillful practitioners. RMC recognizes that a workplace practicum model has become necessary for many of our students, and a process exists that can support students as they meet some of the necessary practicum hours within their workplace.

FOR THE ECE PROGRAM**

Education Assistant Program January Cohort – **NEW!**

Education Assistants work with K-12 students with special physical, behavioural, or learning needs. Ridge Meadows College Education Assistant Program will prepare you for supporting students in mainstream, learning assistance, resource room, English literacy, and alternate settings. A second cohort for this program will commence in the new year (January 2020) and will be complete by winter break 2020 (there will be a break in instruction over the summer). The program runs Tuesday, Wednesday, and Thursday evenings (6:30-9:30 pm) – there will be occasional Monday evenings as well – and most Saturdays (9:00 am – 3:30 pm). A schedule will be provided to successful applicants by early December 2019. There will be two weeks of Directed Observation during school hours towards the end of February, and a four week practicum during school hours starting in mid-November. Cost of the program (subject to change) is approximately \$8,700.00. Payment plans are available. The program is currently not eligible for student loans.

While this is considered a part-time program, the work load is quite heavy. Regular attendance, participation, and completion of assignments is of the utmost importance.

Admission Requirements The Deadline for Application for January 2020 is Friday, September 27, 2019.

Late applications may be considered once applicants who have met the deadline have been reviewed and if space remains. As there has been a demand beyond our capacity in recent years, we recommend applying by the deadline.

- Completion of Application form – the form will be available online June 21, 2019 or can be picked up in person at the college after that date. Our website: www.rmcollege.ca

Included with the application form, please submit:

- Two letters of reference, preferably from professionals in education, special needs programs, child care, recreation, or community service.
- Transcript or proof of Grade 12 graduation. Off shore credentials may be considered. Evidence of other post-secondary education should be included.
- A record / summary of applicable work or volunteer hours (100 hours).
- A resume is not mandatory, but useful.

Pre-Requisites:

- Completion of the application form along with supplemental documents and a **\$30 non-refundable application fee**.
- High School Graduation – Grade 12.
- Excellent communication skills in written and spoken English.
- Ability to pass a Criminal Records Check for work in the vulnerable sector – the college will run these checks upon acceptance to the program.
- 2 professional references.
- 100 hours appropriate work / volunteer experience.

Assets for Applicants:

- Volunteer or work experience with children or youth in school settings (K to 12)
- Volunteer or work experience with children, youth, or adults with special needs
- Familiarity with the various roles of education assistants in the school system
- Strong numeracy and academic aptitude
- Post-secondary courses in education, psychology, special needs, or health care
- Other training related to health care, child care, behavioural support, or home support

Selection Process:

A limited number of applicants will be accepted to the program. Class size each year is limited so selection into the program is based on a competitive process.

Application packages will be reviewed after the September 27, 2019 deadline.

Applicants are evaluated on their initial application package. Selected applicants will be screened through further written and personal interviews, focusing on these criteria:

- Completeness of the application
- Relevant work and/or volunteer experience, especially with people with special needs or in K-12 classrooms
- Related prior education and other applicable academic qualifications
- Demonstrated understanding of the role of an education assistant
- Preparedness for the program's demanding schedule.

Only applicants who will be given further consideration will be contacted by November 8, 2019. Applications will be reviewed by a committee of program instructors and college administration. The committee's decisions regarding applications are final and not subject to appeal.

Teaching English As A Second Language (TESL) Certificate

Graduates of this intensive 120-hour program may find ESL teaching positions in the international marketplace, private language schools and in private tutoring.

Prerequisite: admission to TESL program, see TESL Application session.

BUILDING SERVICE WORKER

If you are changing careers or entering the work force, and are seeking employment in a growing industry, then our Building Service Worker (BSW) program is the right fit for you! In both the public and private sector, there is a growing demand for certified BSW's that know how to perform the job in a safe, competent and professional manner. Our 3 week BSW comprehensive program provides students with classroom and technical training including practical hands on cleaning practice and experience using various cleaning equipment. Students will be taught all aspects of cleaning inclusive of sanitation, proper chemical handling, floor maintenance inclusive of stripping, waxing and buffing floors, carpet maintenance, safety procedures and Workplace Hazardous Materials Information System (WHMIS). Upon successful completion of this program, students will receive a BSW and WHMIS certificate.

Worksafe Certificate Programs: Custom Courses For Business

Admission requirements: Fluency in English and 17 years of age.

Certificate requirements: Each program requires participants to take four to seven core topics. Students are tested on the core topics at the end of each program to qualify for certification. Each program also includes elective topics and/or workshops that may be offered on the basis of student need and instructor availability. Programs may be delivered at Ridge Meadows College or at workplace sites. Please call for more information regarding customized WorkSafe training for your workers, at your worksite.

HAZARD RECOGNITION & CONTROL

This will be of interest to workers, new supervisors, joint health and safety committee members, worker health and safety representatives, and business owners or operators who wish to improve health and safety performance in their workplace. The course will help participants identify hazards and apply effective strategies to control them in their workplace.

JOINT HEALTH & SAFETY COMMITTEE TRAINING

This course is ideal for joint health and safety committee members, worker health and safety representatives, and health and safety professionals committed to reducing workplace injuries and diseases. The course will help participants identify and interpret joint health and safety committee members' functions and duties and to carry out their responsibilities to promote workplace health and safety.

OCCUPATIONAL HEALTH & SAFETY IN SMALL BUSINESS

This course aims at helping small business owners to understand their legal responsibilities and to exercise due diligence in their workplace. This course is also suitable for worker health and safety representatives, supervisors, and workers in small operations.

PREVENTING WORKPLACE VIOLENCE

This program provides employers and workers with tools to reduce workplace violence, which has increasingly become a concern within a number of occupational sectors – health care, social services, and retail business, for example.

SUPERVISOR SAFETY MANAGEMENT

This course aims to help supervisors to exercise due diligence and to carry out their responsibilities for creating and maintaining a safe and healthy work environment. The course is designed for supervisors, new or experienced, and is also suitable for joint health and safety committee members, worker health and safety representatives, and health and safety professionals committed to reducing workplace injuries and diseases.

PREVENTING & INVESTIGATING MUSCULOSKELETAL INJURY (MSI) (SPRAINS & STRAINS)

Upon completion of this course, students will be able to explain the seven-step Musculoskeletal Injury Prevention process, identify risk factors associated with MSI, determine ways to control identified risks, and apply tools to prevent MSI and conduct investigations into MSI.

WORKPLACE HAZARDOUS MATERIALS INFORMATION SYSTEM (WHMIS)

This course will educate you on the health hazards of materials used in the workplace and the proper safety procedures for dealing with them (B.C. regulations). Half day session.
